

NCC Has Your Back!

Mentors are waiting to talk to you!

23,000 students attend Nassau Community College. New students often feel like this woman.

- Confused about registration or financial aid?
- Want to know what a liberal arts degree is for?
- Trying to decide if you should switch majors?
- Don't know how to go about getting the most out of college?
- Feeling concerned about success?
- Wondering how to juggle work, school, and the rest of your life?

If you want a “coach” who can answer questions, help you think about your college goals and choose courses, and guide you to a successful college experience, you want a mentor.
