

Would you like to help other students?

***Introducing the Nassau Community College (NCC)
Peer Mentor Program!***

Peer Mentors will serve as a guide and provide support to first-year NCC students to help them in their transition to NCC and their college experience.

The goals of the Peer Mentor Program are to:

- Assist first-year students in learning about the academic and social aspects of life at Nassau Community College.
- Familiarize new students with College resources and services.
- Empower student leaders to be role models for first-year students and make them feel more comfortable at NCC and as college students.

Peer Mentors will:

- Serve as an assistant in an NCC 101 course and work with the faculty member to help and follow up with students who may need guidance.
- Utilize their speaking and interpersonal skills to engage students as a group and individually to encourage participation in NCC 101.
- Promote NCC's many student activities and events and display positive school spirit to inspire first-year students to get involved.
- Serve as a role model to students and communicate the importance of adherence to all College policies, particularly the Student Code of Conduct and Student Roles and Responsibilities, as articulated in the NCC Catalog.
- Assist students in creating positive relationships with other students.

*For more information on how to apply to become a peer mentor, contact:
Dean Dave Follick (516-572-7346, david.follick@ncc.edu)*
