

Make the **smart** choice for your future. **CONSIDER A NEW CAREER AS A CERTIFIED NURSING ASSISTANT (CNA)**

Train To Be A Certified Nursing Assistant

With a growing elderly population on Long Island, the long-term care industry is expanding and the demand for Certified Nursing Assistants (CNAs) is increasing. This course will provide students the technical skills to provide necessary care to patients as well as the critical thinking and communication skills to deliver individualized assistance to those in need of care. This course also provides an excellent entry point for students interested in entering and eventually advancing in the health care profession. CNAs can work in a variety of settings including hospitals, nursing homes, adult day care and assisted living facilities.

Course Information

Nassau Community College, in partnership with the VEEB School of Nursing, is offering an 11-week Certified Nursing Assistant (CNA) program. Students will learn patient care techniques such as grooming, feeding, transporting and administering treatments as well as how to document patients' vital signs and symptoms. Course topics include: anatomy, physiology, nutrition, infection control, and legal and ethical policies. This course prepares students to provide nursing care to the elderly, those with cognitive and mental disabilities and others in need of nursing services.

Textbook, background check, materials and certifying exam are additional costs. Students will need to purchase light blue scrubs and a stethoscope.
