CERTIFIED NURSING ASSISTANT (CNA)

TRAIN TO BE A CERTIFIED NURSING ASSISTANT
With a growing elderly population on Long Island, the long-term care industry is expanding and the demand for Certified Nursing Assistants (CNAs) is increasing. This course will provide students the technical skills to provide necessary care to patients as well as the critical thinking and communication skills to deliver individualized assistance to those in need of care. This course also provides an excellent entry point for students interested in entering and eventually advancing in the health care profession.

CERTIFIED NURSING ASSISTANT
Nassau Community College, in partnership with the VEEB School of Nursing, is offering a Certified Nursing Assistant (CNA) program. Students will learn patient care techniques such as grooming, feeding, transporting and administering treatments as well as how to document patients’ vital signs and symptoms. Course topics include: anatomy, physiology, nutrition, infection control, and legal and ethical policies. CNAs can work in a variety of settings including hospitals, nursing homes, adult day care and assisted living facilities. This course prepares students to provide nursing care to the elderly, those with cognitive and mental disabilities and others in need of nursing services.

Students must complete the full 120 hours of training (90 classroom/lab hours and 30 clinical rotation hours) to sit for the New York State certifying exam. Clinical rotations will be conducted at a local nursing home and students must arrange their own transportation to the nursing home on the Saturday sessions scheduled for clinical rotations.

Requirements: Students must be 18 years of age or older. Complete a background check and meet health screening requirements. Must provide a copy of a High School diploma or equivalent with the registration form.

Textbook, background check, materials and certifying exam are additional costs. Students will need to purchase light blue scrubs and a stethoscope.
