

Make the **smart** choice for your future. **CONSIDER A NEW CAREER AS A DIALYSIS TECHNICIAN!**

As kidney failure continues to be a growing national health problem, kidney disease is driving the growing demand for well-trained dialysis technicians. Dialysis technicians are employed in hospitals, outpatient clinics, and other medical facilities. Under the supervision of physicians and registered nurses, Dialysis Technicians operate kidney dialysis machines, prepare dialyzer reprocessing and delivery systems, as well as maintain equipment. Furthermore, technicians work with patients during dialysis procedures and monitor and record vital signs.

Students are provided with the knowledge needed to perform the duties required of an entry-level Dialysis Technician trainee.

Primarily a lecture course, it covers the key principles of kidney function and failure, and dialysis therapy, kidney dialysis machines, dialyzer preparation and reprocessing, how to assist dialysis patients in managing their disease and treatment; and monitoring and recording vital signs.

The course has 70 hours of instructor-led classes in the classroom. Student must purchase a txtbook and blue (any shade) scrubs.

This training is appropriate for RNs, EMTs, CNAs, PCTs and other health care professionals interested in specializing in dialysis. For those without healthcare experience, this course will provide basic dialysis treatment knowledge to make the student more marketable in applying for an employee training program at a Dialysis Treatment Center.

Course Information

This course covers the following key areas and topics:

- Basics of kidney physiology and kidney failure
- Principles of hemodialysis
- Delivery systems and dialyzer preparation
- Patient monitoring during treatment and recording patient vital signs.
- Assessing for patient complications
- Impact of other medical conditions

CE1 266 ON CAMPUS COURSE

Fee: \$1,895

The current course schedule can be found at [CWD Course Schedule](#).

Certification

Students with a high school diploma and who complete a minimum of one year of employment with on-the-job training as a Dialysis Technician at an End-Stage Renal Disease (ESRD) or medical facility can apply to take the Board of Nephrology Examiners Nursing Technology (BONENT) Certified Hemodialysis Technician certifying exam. For more information, visit <https://bonent.org/>. A current, government-issued ID and a clear record with no felonies is required to take the exam. The exam fee is not included.
