EMERGENCY MEDICAL TECHNICIAN (EMT)

Do you have an interest in helping others who are injured? Do you want to make a difference and be an important part of an emergency team? Train to become an EMT in only four (4) months. It is the first step on a pathway to a career as a paramedic or a variety of other careers in health care.

These technicians are skilled in the provision of basic life support for the many illnesses and accidents that require emergency medical treatment prior to arrival in a hospital emergency department. EMTs are trained in patient immobilization and packaging procedures needed to prevent further injury and to provide safe transport to an appropriate medical facility.

COURSE INFORMATION
In partnership with the Nassau County Emergency Medical Services Academy, NCC is offering the approved New York State Department of Health Emergency Medical Technician - Basic (EMT-B) course which will prepare you to become a certified EMT.

During 132 hours of class, students will complete the American Heart Association CPR course. In addition to classroom training, students must complete a clinical experience of 10 hours in an emergency room of a local hospital and have an opportunity for a ride-along. Students must also complete three on-line classes, provided free of charge by FEMA. The textbook is required for the first day of class. Students should expect homework assignments after each class.
