

**Nassau Community College  
Respiratory Care Program**

**Advisory Committee Duties & Responsibilities**

The Advisory Committee of the Nassau Community College Respiratory Care Program, composed of members of the Programs' communities of interest, provides advice and support through regular attendance at scheduled meetings as well as participation in program issues as necessary and appropriate throughout the year.

The specific functions of the Advisory Committee are to assist program personnel with the following:

- Act as a liaison between the Program and the community.
- Encourage up-to-date and relevant educational processes.
- Determine the need for a particular level program in the community.
- Review the curriculum.
- Facilitate acquisition of necessary equipment, textbooks and related library, audio-visual and digital resources.
- Market the Program.
- Locate qualified faculty.
- Job placement of graduates.
- Review of any changes to program goals, outcomes and instructional effectiveness.
- Review substantive Program changes.
- Promote community service by Respiratory Care students.
- Ensure availability of appropriate clinical resources.
- Accreditation process.
